

Lighting The Night

Healthcare Equality '09

Our country is in the midst of a healthcare crisis. We have a broken system that costs too much, covers too few, and is increasingly out of reach for many communities. But for some, particularly women, racial and ethnic minorities, and other underserved populations, the crisis is much deeper than that.

For far too long, African Americans, Latinos, Asian and Pacific Islanders and Native Americans have endured systemic healthcare inequalities that have resulted in greater suffering from chronic diseases, shorter life spans, and an overall lower quality of life. We demand that our elected leaders pass a healthcare reform bill that ensures higher quality, affordable healthcare that works for everyone.

Join us on June 24th to:

- ★ Speak out to demand healthcare equity
- ★ Enjoy food and live cultural entertainment
- ★ Culminate the evening with a candlelight vigil to symbolize the power of the healthcare equity movement
- ★ Lobby your state representative to fight for equitable reform
